# Movie project

- 생각했던 독서 웹:

 - 독서 기록 관리

  - 저 자신

  - Api 를 구하는 데에 문제

- 구현하려고 했던 기능:

  - api에서 영화 rating대로 추천 받아

  - checklist를 만들고

  - Like -> Rating

```
componentDidMount(){
fetch('https://yts.lt/api/v2/list_movies.json?sort_by=download_count')
.then(potato => potato.json())
.then(json => console.log(json))
.catch(err => console.log(err))
}

_renderMovies = () => {
    const movies = this.state.movies.map((movie) => {
        console.log(movie)
        return <Movie
        title={movie.title_english}
        poster={movie.large_cover_image}
        key={movie.id}
        genres={movie.genres}
        />
    })
    return movies
}
```

- 죄송합니다. 짜는 중에 있습니다…

- 어려움이 있는 점

  - react에서 component 공부

  - Api & json 파일

About Time

Number One (0) Like

At the age of 21, Tim Lake (Domhnall Gleeson) discovers he can travel in time. The night after another unsatisfactory New Year party, Tim's father (Bill Nighy) tells his son that the men in his family have always had the ability to travel through time. Tim can't change history, but he can change what happens and has happened in his own life-so he decides to make his world a better place...by getting a girlfriend....
